PROFILE

PhD student in Biomedical Engineering and Biophysics at the Faculty of Sciences, University of Lisbon, with over 12 years of professional experience in software development, digital transformation, product management and entrepreneurship. Founder and Software Engineer at Macroanalytica, previously at Vodafone Portugal. My research focuses on applying Artificial Intelligence and Digital Health technologies to real-world healthcare challenges. Certified trainer (CCP) with 180+ hours of classroom teaching in vocational education, and a strong interest in lecturing and knowledge transfer between education and industry.

RESEARCH INTERESTS

Artificial Intelligence and Machine Learning in Healthcare · Digital Health · Digital Twins and Computer Simulation · Edge Computing (RISC-V) · Biomedical Data Analysis

EDUCATION

PhD in Biomedical Engineering and Biophysics — Sep 2026 – present
Faculty of Sciences, University of Lisbon (FCUL)

BSc in Systems and Computer Management — Oct 2023 – Jul 2026
Atlântica University

Vocational Diploma in IT Systems Management and Programming — Sep 2009 – Jun 2012
Escola Secundária Rainha D. Leonor, Lisbon · EQF Level 4

TEACHING QUALIFICATION & EXPERIENCE

Certificate of Pedagogical Competence (CCP) — 2026
Certified trainer · No. F792234/2026

Trainer - Information and Communication Technologies (ICT) — 2026 – present
Inetese· Vocational programmes, EQF Level 4

- 180+ hours taught across 13 classes.
- Modules: Web Page Design; Image Acquisition and Processing; Searching, Filtering and Structuring Information in Digital Environments; Data Organisation and Processing.

PROFESSIONAL EXPERIENCE

Founder & Software Engineer — May 2022 – present
Macroanalytica | IT Solutions

Product Owner — Dec 2018 – Apr 2022
Vodafone Portugal

Content Management Specialist — Nov 2013 – Dec 2018
Vodafone Portugal

Full Stack Engineer — Oct 2012 – Jul 2013
Mindshaker - Digital Creativity for Culture & Business

CERTIFICATIONS & FURTHER TRAINING

- MicroMasters - Artificial Intelligence & Machine Learning in Healthcare
- EITCA/AI - Artificial Intelligence Academy (European IT Certification Academy)
- EITCA/IS - Information Technologies Security Academy (European IT Certification Academy)
- Introduction to RISC-V (LFD110)-The Linux Foundation

SKILLS

Programming	Python, C/C++, SQL; data structures and algorithms
Systems	Linux systems, databases, information systems management, edge computing (RISC-V)
AI & Data	Artificial Intelligence, Machine Learning, computer simulation, digital twins
Teaching & Communication	Training and knowledge transfer (CCP); scientific writing in LaTeX
Languages	Portuguese (native); English ([level - e.g. C1])
